PROFESSIONAL SUMMARY

AI/ML Engineer and Data Scientist experienced in designing and deploying end-to-end AI systems. Combines machine learning, data engineering, software engineering, and MLOps to build reliable, scalable solutions across diverse sectors. Hands-on experience spans predictive modelling, natural language processing, computer vision, LLM systems, and production deployment.

TECHNICAL SKILLS

Programming & Data: Python, SQL, PostgreSQL, data analysis, exploratory data analysis, data cleaning, feature engineering, web scraping, data collection, database management and data manipulation
Machine Learning & AI: scikit-learn, TensorFlow/Keras, PyTorch, predictive modelling, classification, deep learning and model evaluation
NLP & LLM Systems: natural language processing, text classification, BERT, large language models, intent classification and agentic workflows
Computer Vision: image classification, ResNet18, face detection, image preprocessing and model fine-tuning
Engineering & MLOps: MLflow, Docker, CI/CD, Git, GitHub, Streamlit, Node.js, Redis, microservices and application deployment
Cloud, Big Data & Notebooks: AWS, GCP, Azure, Spark, Hadoop, Jupyter Notebook and Google Colab

PROFESSIONAL EXPERIENCE

Lead AI/ML & LLM Engineer Jun 2026 – Oct 2026
Luminor Terminal LTD (Revluma) | *Abuja* | *Remote*

- Led the AI/ML technical strategy, offloading heavy machine learning workloads into asynchronous Python microservices with explicit data contracts.
- Built event-driven feature extraction pipelines to convert continuous user interaction data into reliable predictive signals.
- Designed and deployed machine learning models for session risk evaluation, behavioural sensitivity, send-time optimisation, churn forecasting, and dynamic offer allocation.
- Led the engineering team in building and integrating *Rev Intelligence*, an autonomous multi-agent reasoning framework backed by dynamic business state synthesis and multi-tiered memory.
- Managed model evaluation and MLOps infrastructure, setting up feedback loops, experiment tracking, drift monitoring, and production API serving.

IT & Software Intern May 2025 – Sep 2025
Federal Mortgage Bank of Nigeria | *Abuja*

- Developed a prototype banking application in Python with account management, deposits, withdrawals, transfers, airtime purchases and bill payments.
- Implemented double-entry accounting with ledger tracking, trial balance and customer reconciliation.
- Created data visualisations and analytical reports to support data-driven decision-making.
- Supported banking operations, system health checks and network infrastructure tasks.
- Prepared reports, presentations and meeting documentation for internal teams.

Network & Infrastructure Intern Mar 2025 – May 2025
Chipset Technologies Limited | *Abuja*

- Collaborated with the IT infrastructure team on field maintenance and client installations.
- Installed, configured and maintained on-site CCTV systems for clients.
- Managed and troubleshot internet access points to support network uptime.
- Applied networking fundamentals through hands-on infrastructure support.

Data Scientist Trainee Nov 2023 – Jan 2025

SQI College of ICT | *Ogbomoso, Oyo State*

- Completed practical training in data analysis, data visualisation and machine learning using Python and SQL.
- Analysed real-world datasets to extract actionable insights and inform decisions.
- Built a playing-card classification application using PyTorch and ResNet18, then deployed it with Streamlit.
- Developed ToxiScan, an NLP-based text-classification tool for detecting toxic content.
- Created a gender-identification model using computer vision and deep learning.
- Strengthened communication, time-management and multitasking skills through project delivery.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science Jan 2022 – Present

Ladoke Akintola University of Technology (LAUTECH) | *Ogbomoso, Oyo State*

Academic Standing: First Class Honours

Professional Diploma in Data Science Nov 2023 – Jan 2025

SQI College of ICT | *Ogbomoso, Oyo State*

Academic Standing: Excellent

CERTIFICATION

Certification in Data Science (SQI College of ICT) Jun 2025
